Commission

## Connecting Europe Facility TRANSPORT

### **Member States involved:**

Denmark, Sweden

### **Implementation schedule**

Start date: March 2015

End date: December 2017

### **Budget:**

#### **Estimated total cost of the action:**

€2,960,000

#### **Maximum EU contribution:**

€1,480,000

**Percentage of EU support:** 50%

#### **Beneficiaries & implementing bodies:**

CLEVER A/S

## Multimodal e-mobility connectivity for the Öresund Region (MECOR)

2014-EU-TM-0213-M

The Action is a study with pilot deployment and will connect two nodes urban nodes of Malmo and Copenhagen as e-mobility hubs. The Action aims to promote multimodal e-mobility by preparing for and installing 30 semi-fast charging sites in Denmark and 30 semi-fast charging sites in Sweden, with a total number of 120 charging stations and 240 charging outlets.

Located on the Scandinavian Mediterranean Core Network Corridor, the Action is part of a Global Project aiming at deploying fast and intermodal charging solutions across Scandinavia – the aim is to install 950 fast stations and 2,000 semi-fast ones.

It is also in line with the Oresund Regional development strategy (elaborated in 2010) which calls for development of "green corridors".
