CASPY EUROPARKING SRL (Romania)

Status:

Ongoing

Europarking Secure Parking

2019-RO-TMC-0223-W

The Action is part of the Global Project which aims to contribute to optimising and improving the security of the western and southern Romanian road transport infrastructure along the Rhine-Danube Core Network Corridor as well as to further integrate it in the network of certified safe and secure truck parking areas (SSTPAs) throughout the European Union.

This Action aims at deploying a certified Safe and Secure truck Parking Area (SSTPA) with 70 Heavy Goods Vehicle (HGV) parking spaces according to the requirements of the gold level of the EU-Parking Standard. This area will be equipped with IT system that will enable the delivery of static and dynamic information on truck parking in line with Regulation EU/885/2013.

The Action will be implemented through the following activities:

- Procurement and Legal compliance
- Setup of a Safe and Secure Truck Parking Area
- Certification of the Safe and Secure Truck Parking Area
- Dissemination of project results
- Project Management

On the long term, the Action will lead to enhanced road safety, improved social and security conditions for drivers and environmental benefits.
